CHAMBER IN FAVOR OF THE DEPEW BILL

Vote for Change of Inauguration Date is Unanimous.

MUCH ENTHUSIASM AMONG MEMBERS

Action Taken in Record Time Is Followed by a Demonstration.

The Chamber of Commerce to a man will support the Depew bill providing for a change in the date of the Presidential inauguration. Last night it put itself on record to that effect by a unanimous vote.

"Any discussion?" asked President Gude, after Albert Schulteis had introduced a resolution to the effect that the bill offered by the New York Senator receive the indorsement of the Chamber. For a few seconds there was absolute silence. Then, cries of "Question!" broke from several parts of the

"All in favor-" but the rest of the question was drowned in the volume of 'ayes" that followed. Several members jumped to their feet in their enthusiasm to vote on the proposition. The negative side of the question was the only one fully stated and not one vote was cast in its support.

Record Breaker.

Within less than a minute from the sittings. introduction of the resolution it had been favorably disposed of. Not only was record time established in the matter of parkamentary procedure, but a erect jointly a large office building was precedent was established by the cham- suggested, when inquiry was made conber in passing a resolution dealing with cerning the building proposition of the District or national affairs without first

The action was taken at the beginning will be taken up by the building comof the meeting and a regular demonstration among the members of the Chamber followed before he order of business was resumed. President Gude stated that it would afford him the greatest satisfaction to appear at the hearing before the Commissioners with lespect to chan due the incurrent demonstration. In the commissioners with lespect to chan due the incurrent demonstration among the members of the special committee which is to consider the various amendments of fered to the constitution of the Chamber. The committee is composed of Capt. James F. Oyster, chairman; J. H. Raiston, D. J. Callahan, G. Y. Worthington, and B. W. Guy. respect to changing the inaugural date and make known the decision of the

Chamber favoring the Depew bill. The record time made by the Chamber in handling the inaugural date proposition characterized the discussion dealing with the other questions brought up during the evening. Although there was a large attendance present and several important matters were considered, the session was one of the shortest that has been held in the history of the organization.

National Bank Loans.

"Can a national bank in the District loan money on real estate security? Do national banks make loans on this kind of security, regardless of what the national bank laws have to say on the subject?" These and other questions were asked in connection with a discussion of the Torrens land registry system, which was introduced by John Flemming.

In addition to Mr. Flemming, who explained the system and pointed out the advantages that would result from its adoption, F. S. K. Smith, B. W. Guy, E. Y. Worthington, and B. F. Saul participated in the discussion, which was principally as to the effect the proposed system would have on national banks. No one seemed to know just how banks are regarding the real estate security clause in the national bank laws, and it was ascided to put the proposition up to the law and legislation committee, which will make a thorough investigation into the merits

Navy Yard Question.

The committee on manufactures which several months ago was authorized to investigate the question of the retention of employes at the navy yard, was last night re-authorized to again take up the matter. This was done at the request of Emmet Adams, a representative of Columbia Lodge, International Association of Mechanics, who addressed the chamber regarding the present situation at the navy yard. Mr. Adams said that the order made several months ago that about 1,300 men would be dismissed at the navy yard still remained posted. He declared that the co-operation of the chamber was desired when the matter of the retention of the employes should be taken up with the new Administration, which will probably be done shortly.

The calling of attention by O, S. Smith to conditions prevailing in regard to the Municipal Court resulted in a decision being made, authorizing the law and legislation committee to urge the prompt organization of the court, which is to be composed of justices of the peace. Mr. Smith pointed out that under existing conditions, the work of the city cannot go forward, since suits for ejectment for nonpayment of rent cannot be brought. Other objectional conditions were also set forth. It was stated that about 5,000 cases have accumulated, which must be

Isn't It a Shame that such a handsome young man as this should be suspected of the theft of \$1,000?

You'll be more than mystified by the startling succession of surprises concerning this handsome young man in

ROOSEVELT TOUCHED BY WOMAN'S APPEAL

Letter From Him When President Comforted Farmer's Wife Who Was Criticised As Cook by Country Life Commissioner.

of office he found time to write a let- two very old men and four children ter of sympathy to a farmer's wife out near Council Bluffs, Iowa, in which he gave an incidental rebuke to one of the members of the farm life commission and expressed his understanding of the adverse conditions under which the farmer's wife was laboring

The incident grew out of the fact that a member of the farm life commission didn't get the kind of a supper he wanted served up to him on short notice at the farmhouse where the woman lived.

Henry Wallace, of Iowa, one of the ommission, but not the member who criticised the meal, has made the facts public. They shed an interesting sidelight on the Roosevelt character. While the commission was meeting at Omaha, one of the commissioners told of staying one evening at the farm alluded to. Slim Bill of Fare.

About all there was to eat was some brittle fried pork, some greasy fried baby, is not to be blamed for one mopotatoes, and a few adjuncts poorly prepared. From this, the commissioner generalized that 50 per cent of the women on the farms didn't know how to

The story got into the newspapers in the vicinity and caused the woman the greatest embarrassment. She sent fense. She said, among other things, made."

Care of Lamps.

The bowl of the lamp should be kept full of oil, but when not in use the wick should be turned low to keep the oil from oozing out on the burner. The burners should be cleansed occasionally by boiling them for half an hour in a strong solution of Gold Dust washing powder. Wipe on a cloth and they will be as good as new. To clean the chimneys, wash them in warm water to which has been added a teaspoonful of Gold Dust washing powder and wipe dry on a soft towel; polish with an old newspaper. Lamp chim-neys are made more durable if they are put into a pan of cold water and allowed to heat gradually till the water is boiling and left in the water until cold again. gradually till the water is the water until cold again.
